history

Ungvár Winery was founded in 2005 as an independent family business in the famous Hungarian wine region: Tokaj, which is located in one of the most beautiful landscape of world heritage.

The story started in the **early 60's** with a small five-acre state, where grandfather of current owners began growing grape and making wine thus establishing the family winery. The whole family has a very close relation to the wine region: they were born and raised here and their love of grape growing and winemaking was learned from their early

ages. They believe that this is their heritage which must be preserved in all traditions and developments but also commitments to modern technology. At the beginning they started with small steps: increased the volume by renting a winery and buying grapes. In order to move to modern technology later they acquired the current winery – in a little village **Olaszliszka** – which now has a capacity of 30,000 hl and 2.5 million bottles sold annually with the highest quality standards and also in accordance with traditions of the wine region.

family

Now **3 members of the family** have active role in business, the two young brothers and the mother share everyday tasks: **Balázs** is a highly experienced winemaker, who controls wine making procedure and technology developments. **Zsigmond** is responsible for production and logistics, while **the mother** supervises the administrative processes. In addition to growing and buying grapes the brothers control every steps of winemaking and bottling process by themselves, taking care of the details to ensure the best quality.

Winery's technology includes **state-of-the-art** refrigerated and heated stainless steel tanks, grape processing equipments and traditional barrels, too. Among the well-known grape varieties of wine region – Furmint, Hárslevelű and Sárgamuskotály – consumers are conquered by the excellent Late Harvest, Szamorodni and Aszú wines as well.

The winery and its wines always meet the highest standards of quality of the partners for audits and laboratory tests.

production

Bottling of wine is carried out by **vacuum filling machine** in order to get to consumer's table the best wine with always the same quality thanks to **sterile and clean technology**. Products available in the largest stores and retailers of domestic market have reached success not only among Hungarian consumers but also in export markets: currently the most popular Tokaj varieties are

available in Polish, Russian, Serbian, Croatian, Slovak and Czech market as well.

While meeting at the same time the highest quality expectations and preserving the old glory of wine region **Ungvár Winery** has become for now one of the **largest player in Tokaj's wine market** and it endeavours to supply wine consumers with the best wines from Tokaj.

wine descriptions

Tokaji Aszú sweet

It is characterized by a shiny, golden-yellow color and a thousand-faced scent from flowers through vanilla to walnuts. In the extremely long taste even more fruit appears: prunes, melons, raisins, dates, which are well complemented by its crisp acids. Thanks to the barrel maturation chocolate and tobacco also appear in the aftertaste in addition to botrytis.

Tokaji Furmint dry

Vibrant greenish-yellow color specifies this wine. In its scent citrus is dominating but the mineral characteristics of the terroir appear too. Pleasantly crispy acids with fruity notes of lime, grapefruit and juicy pear spread out in taste with a long finish.

Tokaji Furmint semi-sweet

Its appearance is clean, greenish-yellow in color, and the aroma is dominated by juicy green apples in addition to fresh, floral notes. The fine minerality and elegant acids from the volcanic soil make this wine a complex experience.

Tokaji Furmint sweet

Sparkling golden coloured wine, its scent reminds to the blooming fruit trees in the spring. Its elegant acids are well complemented by peach and pear in flavor and by honey in aftertaste.

Tokaji Hárslevelű semi-sweet

It has pale golden color, the aroma is characterized by a combination of linden and stone fruit characters. The taste of fruity notes also dominates, in addition to peaches and after sometime mango, papaya and other tropical fruits also appear.

Tokaji Sárgamuskotály semi-sweet

Sparkling greenish-yellow wine. It has an intense muscat scent with white flowers and peaches. In addition to ripe fruits and honey, you can find notes of oriental spices.

Tokaji cuvée semi-sweet

Pale golden coloured wine, lime blossom and ripe grapes appear in its scent. The typical ripe fruit character of Sárgamuskotály, the honey notes of Hárslevelű and the elegant acidity of Furmint makes this wine really complex in taste.

Tokaji Late Harvest sweet

Pale golden colour characterizes this wine, its smell is dominated by floral aromas mixed with honey notes. The taste of dried apricot, mango and honey is framed by botrytis due to the shriveled grape berries.

Tokaji Szamorodni sweet

Bright golden coloured wine, in the smell appears intense acacia, honey and dried apricots with a little botrytis. The candied fruits, which can be discovered in the taste, are an exciting addition to the vibrant acids and volcanic minerals, complemented by the delicate spices of barrel maturation.
